

This document is intended to aid Local Boards of Elections (LBEs) during a canvass of absentee or provisional ballots, a review of write-in votes, a post-election audit or a recount using ballots or ballot images. The examples below are taken from the Code of Maryland Regulations (COMAR) §§ 33.08.02.02 and 33.08.02.03 (attached) and must be used to determine the voter's intent based on what defines a vote under Maryland law.

The following visual examples include votes that *must* be counted, as well as votes that *cannot* be counted. Of course, the range of ways in which a voter can mark a ballot is unlimited and not all possibilities are included here. These examples should be used to inform decision-making regarding voter intent; however, in the event voter intent cannot be determined, assistance should be sought from the LBE's counsel or the State Board of Elections (SBE).

Note that for many of the following examples, duplication of the ballot following the regulations found at COMAR § 33.08.04.05 (attached) would be necessary prior to tabulation on either a DS200 or DS850. Absentee and provisional ballots should be visually examined prior to tabulation and should be referred to duplication teams as necessary. Finally, if a voter does not mark or leaves blank a candidate or question choice, the valid votes for other choices on the same ballot *must* be counted.

II. Write-in Voting

For any printed ballot or ballot image that is to be counted manually (absentee, provisional or write-in canvass, post-election audit or recount), where the voter has voted for a qualified, or filed, write-in candidate,¹ the following guidelines should be used to determine whether a valid vote for the write-in candidate has been cast. These guidelines are developed from C.O.M.A.R 33.08.02.03.

Again, many of the following examples would require duplication pursuant to COMAR § 33.08.04.05 prior to tabulation.

- 1) Where the written name of a filed write-in candidate, or the written name of a candidate whose name is on the ballot in the contest is written in the write-in space, whether or not the oval designating the selection of a write-in candidate has been marked, constitutes a valid vote for the candidate.

Votes to be counted:

(where Kathy Szeliga is a candidate and Ted Athey, Michael Pearson and Bob Robinson are filed write-in candidates)

<p>U.S. Senator Vote for 1</p> <p><input checked="" type="radio"/> Kathy Szeliga Republican</p> <p><input type="radio"/> Chris Van Hollen Democratic</p> <p><input type="radio"/> Margaret Flowers Green</p> <p><input checked="" type="radio"/> or write-in: Kathy Szeliga</p>	<p>U.S. Senator Vote for 1</p> <p><input type="radio"/> Kathy Szeliga Republican</p> <p><input type="radio"/> Chris Van Hollen Democratic</p> <p><input type="radio"/> Margaret Flowers Green</p> <p><input checked="" type="radio"/> or write-in: Kathy Szeliga</p>	<p>U.S. Senator Vote for 1</p> <p><input type="radio"/> Kathy Szeliga Republican</p> <p><input type="radio"/> Chris Van Hollen Democratic</p> <p><input type="radio"/> Margaret Flowers Green</p> <p><input type="radio"/> or write-in: Kathy Szeliga</p>
---	--	---

¹ To be a "qualified" write-in candidate, the candidate must file a certificate of candidacy with the appropriate (State or Local) board of elections. Md. Code Ann. Elec. Law § 5-301(e). Write-in votes for any candidate who has not filed a certificate of candidacy and is not on the qualified write-in candidate list will be counted as part of the total votes cast and will be reported in the "other write-in" total.
