ny shouting we will never vote for you you are a jerk. This however did not deter him from waiting in the parking lot and disturbing the residents as they left the meeting . He was so obnoxious the police had to come in force to keep things under control. He came close to assaulting a young women by throwing his hand up in her face. What a embarrassment he must be to any supporters he had if any. The residents of Essex who attended their first meeting are outraged how someone from another community would disrupt there first meeting . As he drove off he shot the residents the middle finger. This is very sad.

Lynne Hartnett Mitchell I was so impressed with this meeting. I don't think I have ever seen that many people come to a first community meeting. I was so happy for this group who obviously cares about their beautiful neighborhood and then this total embarrassment had to show himself. He was told previously that this meeting was for the people and NO elected or candidates were invited. What a shame some people don't know the proper way to conduct themselves at a meeting. He was interloping to begin with. Smh. Sorry. Not who I want to speak for our District. 4

 [Lynne Hartnett Mitchell](#) [Jennifer LG](#) it was sad. He knew the rules. Very first thing the New President said tonight was we didnt invite any elected officials because we want to hear from the people. I thought that was such a well thought out excellent platform. Neighbors have been waiting a long time to have a venue to air their community grievances. It was great.. Until he had to take the microphone and start introducing himself...then everyone started saying no politics. But he wouldn't stop. Even a Minister asked him to stop talking and tried to take the microphone away. It took a Police officer to get him to give up the mic.

[Mary Wolff-Woods](#) [Cliff OConnell](#) I just posted this in his live video:

He needs to tell the truth
All politicians were asked not to attend this meeting
It was for our community it was about the residents
It turned out to be a full house.
The residents were civil had time to speak an based on all conversations as well as notes we were all on the same page
This was about us
Rats, speeding, flooding
Tim Fazenbaker !!!Not you !!!!!!!
You were one row in front of me you kept tilting to the left side you walked sideways like you were drunk
I personally did not know you from Adam
But now that I do
You need to grow up
Before you can lead us

[Jillian O'Connell](#) FAKENbaker grabbed the mic out of a residents hand and began to talk about how's he's running for office and our "current leader is.." he got cut off there and booed out of the room by the residents. I held the door open for him to exit while laughing at him and on his way out he shoved his hand in my face, almost as if he was about to "mush" me. I could tell he wanted to. His hand was an inch away from my face. Even after being escorted out he stayed in the parking lot the entire time, at one point I tried to go and speak nicely with him and said "alright guys let's just talk about this and what's going on here we all want to help our communities"... his response was full of excuses, accusations, and lies. Then after 5 police cars came.. he eventually left but not before circling by a group of us and giving us the middle finger. Who is this FAKENbaker !?!? And why does he think disrupting and ambushing a communities 1st association meeting is ok? Why does he think he can steal the mic from a resident, Hollering and yelling while being escorted out, put his hands in peoples face, and then still stick around the parking lot for an hour after being escorted out of the meeting. I 100% get why there's been a restraining order on him before. He is relentless and thinks he can invade peoples personal space, bombard a community association meeting for the residents of Essex, and then linger around the parking lot for hours. Obv. This is a man without boundaries which is why he is on Maryland judicial case search in the first place. Just imagine dating the man , I'm surprised there's not more restraining orders out against him. In the few years I've been doing this I have never seen ANYONE act this way to a community association , not any politicians or any residents have I ever seen come close to behaving like this Fazenbaker aka FAKENbaker.

Yeeessss! I finally got one! It was ham for the win! That suggestion about using a trash bag tie around the ham and securing it to the trigger is pure genius! Out of four snap traps, I got this one last night. One down, 2 million more to go!
