Dear Principals,

Due to connectivity issues, BCPS has canceled Fall MAP testing to maintain its validity. Teachers using MAP data for their SLOs will not complete SLOs this year. These teachers will be evaluated using the professional practice portion of the evaluation tool. Teacher SLO ratings from the previous year of highly effective will roll over as this year's SLO rating reported to the state. All other teachers affected will be have an SLO rating of effective reported to the state.

Please ensure that the affected teachers receive this information as soon as possible.

I will discuss with CASE, SSAA and AESA how principals can identify appropriate measures for their SLOs in the absence of MAP. I will communicate the outcomes of those discussions as soon as possible.

If you have any questions don't hesitate to contact us.

Best regards,

Billy Burke and Russ Brown
